SUMMARY

Frontend Developer with expertise in **React.js, Tailwind CSS, TypeScript, and JavaScript**. Skilled in building responsive and user-friendly web applications with modern UI/UX principles. Experienced in **state management, API integration, and performance optimization**. Adept at collaborating with teams to create efficient and scalable solutions. Eager to contribute to **Digital Nepal** with innovative front-end development skills.

EXPERIENCE

- Optimize user interfaces to enhance user experiences.
- Experience with responsive design and mobile-first development.
- Designed and updated layouts to meet usability and performance requirements.
- Produced websites compatible with multiple browsers.
- Conducted code reviews and implemented best practices to improve code quality and maintainability.

PROJECTS

Online Note Sharing System

- ❖ <https://github.com/krantipariyar574388-netizen/Online-Note-Sharing>
- ❖ Online Note Sharing System is a collaborative web platform designed for academic environments. It enables users to create, manage, and distribute digital notes efficiently across different user levels

TODO

- ❖ <https://github.com/krantipariyar574388-netizen/ToDoList>
- ❖ Todo app is a persistent task management tool built with React and TypeScript. It allows users to create, track, and manage their daily activities through a clean and interactive interface

OwnPortfolio

- ❖ <https://github.com/krantipariyar574388-netizen/MyPortfolio>
- ❖ It is a modern, responsive personal portfolio website. It serves as a digital resume and a professional landing page to showcase skills, experience, and core values
